DETAILED ACTION

1. Applicant's amendment, filed 1-22-2002 (Paper No. 8) is acknowledged and has been entered.

It is noted that applicant has not included the substance of an interview held January 10, 2002. Applicant is required to include the substance of the interview in the formal written reply to the last office action (See MPEP section 713.04)

2. The rejections of record can be found in the previous Office Action mailed 9-25-01 (Paper No. 5). In view of applicant's amendment, all the outstanding rejections, have been withdrawn, however a 112 first paragraph new matter rejection has been applied to the newly amended claims.

3. Formal drawings and/or photographs have been submitted which fail to comply with 37 CFR 1.84. Please see the form PTO-948 attached to the previous Office Action mailed 9-25-01 (Paper No. 5).

Applicants assert that PTO-948 form was not received attached to the official action. It is noted that this asserted omission is in contradiction with the instant application file records, however, a courtesy copy of the form PTO-948 attached to the previous Office Action mailed 9-25-01 (Paper No. 5) is attached to the instant office action.

Applicants also assert that a petition to accept color drawings and photographs is enclosed with the amendment, filed 1-22-2002 (Paper No. 8). However, the examiner notes that no such petition has been received. Applicant is requested to clarify.

As of May 3, 2001, examiners may not permit corrections to drawings to be held in abeyance. Applicant must submit proposed drawing corrections in response to the requirement in response to the requirement in the Office action.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Timing of Corrections Applicant is required to submit acceptable

corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1-10 are not supported by the specification or by the claims as originally filed. There is no support in the specification or claims as originally filed for the recitation "said heparanase protein being at least 95% similar to SEQ ID NO:2". There is no written description of the claimed invention in the specification or claims as originally filed. Thus the claimed invention constitutes **new matter**. Applicant is invited to point out support for the amendatory material.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. No claim is allowed.
